Title: Madness

Genre: Action, Adventure, Casual, Indie, RPG

Developer:

Indie Games Studio

Publisher:

Indie Games Studio

Release Date: 22 Nov, 2016

English,Russian

Short, easy, no story, no replayable.I bought it for 0'59u20ac I dont regret it but I cant recommend it.. Slow, boring, and always starts in russian, some people might like this game but personally i think that even for 99p this game just isnt worth it. This game has the best storry I've seen in a game since Leisure Suit Larry or Undertale. Also, the ambiance in each world makes it feel so much more alive. I overcome various difficulties, traps and demons. What really sold me for this game was a lot of bosses, is different complexity of battlefield. Do yourself a favor and buy it now.. Good storry and ambiance
